RE: NMNWSE Membership

We appreciate your interest in the New Mexico Network for Women in Science and Engineering. This is a great group of women with two wonderful missions – to motivate girls and young women to study science and engineering and to provide women in science and engineering with networking opportunities.

In addition to planning and conducting Expanding Your Horizons™ conferences, our big event is our Technical Symposium and Annual Meeting, held this year in Truth or Consequences, NM, October 23rd to the 25th, 2015. It is an excellent opportunity to meet other professional women from all over the state in an informal, pleasant environment. For more information and to register for the October Annual Meeting, see <http://nmnwse.org/AM/>.

Also linked from the Annual Meeting webpage is a call for **IMPACT!** Award nominations, given out at the Annual Meeting. Nominating someone you know for the **IMPACT!** Award is a great way to show you recognize their contributions.

As a member, you will receive a Membership Directory for the current members, and you will be added to the NMNWSE list server for e-mail announcements. The Directory contains information about the Network's Board of Directors and all of our members. You can use this directory to network or find a contact if you have a technical question. Member's specialties are listed in the back under each Chapter's membership listing.

Again, we welcome your interest and invite you to re-join the Network. The membership form and our TriFold containing information about the organization can be found on the website at: <http://nmnwse.org/Membership.php>. Please consider sharing membership information with a friend or colleague.

Sincerely,

Dana Roberson

Dana Roberson
2015 Membership Chair, New Mexico Network for Women in Science and Engineering
