

Hello Past and Future EYH Presenters:

Thank you again for your participation in past EYH conferences. Without you, there would be no EYH. We invite you to once again share your knowledge and experience with the girls.

The 2010 Expanding Your Horizons Central New Mexico Conference will be held the morning of Saturday, April 3, 2010 on the main CNM campus. We are changing the date and the location of the conference to minimize conflicts with other events. The workshops will be held in Max Salazar Hall on University Ave, right next to the Isotopes Stadium.

As you know, the conference is hosted by The New Mexico Network of Women in Science and Engineering and is primarily comprised of hands-on workshops for girls in grades 6-12. The 50-minute workshops are presented by women in a broad array of careers and are intended to deepen the students interest in math, science and engineering. Keynote speakers and sessions for parents and teachers are also on the program.

We hope you will be a presenter again in 2010 and that you encourage your friends and colleagues to participate. Past workshops may be repeated and workshops may be conducted in teams. We want to list as many workshops as possible in our printed marketing literature, so please sign up now even if you are only a "maybe"!

Please return your completed workshop presenter form by February 15 in order for your workshop to be included in the 2010 EYH event. A long list of workshops has proven invaluable in our effort to attract 150-200 girls. All workshops, including those added later, will be listed on the website [www.nmnwse.org/ceyh](http://www.nmnwse.org/ceyh).

Additional details and the sign-up form can be found at <http://nmnwse.org/ceyh/volunteer.php>.

Don't hesitate to contact me if you would like more information or have any questions. And please forward this to your friends who might be interested in presenting a workshop or in volunteering in other ways. (If you were part of a team last year, please forward this to your teammates.)

Sincerely,  
Kelly Collins  
2010 EYH Workshop Presenter Recruiter
