August 25, 2013

Please consider membership in the New Mexico Network for Women in Science and Engineering.

Over the past year, we've been able to reach out, through our Expanding Your Horizon's Conferences, to young women and encourage their participation in math and science. Through the IMPACT! Award, we've also been able to reward women, like you, for bringing math and science opportunities to young minds. Making a difference is what it is all about and we really would appreciate your membership in the coming year.

The network is a great group of women with two wonderful missions – to motivate girls and young women to study science and engineering and to provide women in science and engineering with networking opportunities. Your membership makes the difference in continuing this mission. In the coming year, we really want to encourage renewed membership and the networking to give us all a connection to a part of our lives that means so much, science, technology, engineering, and math (STEM). Most of all we want to continue the tradition of making a difference.

Part of membership is the new 2014 Membership Directory to be published in 2014. As a member, you will receive a Membership Directory for the current members, and you will be added to the NMNWSE list server for e-mail announcements. The Directory contains information about the Network's Board of Directors and all of our members. You can use this directory to network or find a contact if you have a technical question. Member's specialties will be listed in the back under each Chapter's membership listing.

You will find your membership renewal form and newsletter enclosed. Please review the membership form and update if necessary. Mail the form and your check to PO Box 1360, Los Alamos, NM 87544. Blank forms can be found on the website at: <http://nmnwse.org/Membership.php>. Please share the blank form with a friend or colleague.

In addition to planning and conducting Expanding Your Horizons™ conferences, our big event is our Technical Symposium and Annual Meeting, held this year in Mountainair, New Mexico at the historic Shaffer Hotel, 25-27 October 2013. We would like to encourage everyone, even if only for Saturday afternoon, to come and network. Technical papers will be presented, and there will be time for folks just to get to know one another again. Enclosed is the Annual Meeting Flyer from the website, <http://nmnwse.org/AM>, and the registration form. Please do join us!!!!

Enclosed is also a nomination form for the IMPACT! Award. This award is for those who have really dedicated time and attention to creating opportunities for young women to explore the world of STEM. If you know of someone, please send in a nomination. We want to do all we can to recognize those who have created significant opportunities for young women.

Thanks so much for what you have done over the past year. We do hope you will continue your membership in the New Mexico Network for Women in Science and Engineering.

Sincerely,

Karen Agogino
